MESSAGE FROM THE CIPMM PRESIDENT

Dear Fleet Management community,

On behalf of the Canadian Institute for Procurement and Materiel Management, I am pleased to welcome you to our first fleet management workshop. It demonstrates our commitment to invest and strengthen a community that has not been well served during years of financial restraint. We hope that this will serve as a catalyst to energize the fleet management community that serve such an important role for Canadians.

We have an outstanding program for the day, touching the diverse yet fascinating subjects that are shaping our profession. You will have the opportunity to meet manufacturers and service providers as well as test drive some of the vehicles. This is not a classroom... Our objective is to give you an opportunity to engage with colleagues and many of the leaders of our community.

In addition to a program of workshops, CIPMM is also committed to recognizing the outstanding contribution of our professions to Canadians. We invite you to nominate colleagues for the CIPMM award program in categories such as the David Swift Award for Exceptional Contribution, Innovation and Community Builder. We will launch the call for nomination in Winter 2019. Stay tuned!

We hope that this event will help improve your professional networks, generate new insights and inspire you in your career. Looking forward to meeting everyone!

Vincent Robitaille

PMP CFA MBA C.Dir
CIPMM President

MESSAGE FROM THE WORKSHOP CHAIR

Welcome to the Canadian Institute for Procurement and Materiel Management's Fleet Management Workshop in Niagara on the Lake. I want to thank you for choosing to join us today as we learn about some of the new advancements in the Fleet Management world. Some of the highlights are having the community together for our first workshop, having updates from Treasury Board, PSPC, NR Can, and various private sector partners. It is great to learn about new practices from others and to gain new perspectives we can incorporate into our practices.

It has been a lot of fun putting together a program for your day and I hope it will provide you with an opportunity to hear from some subject matter experts on a number of topics, network with your colleagues and learn some new skills. It was quite a challenge to squeeze everything into two days!

I hope you enjoy this Workshop as much as I enjoyed planning it!

Blair Hurd

CIPMM Fleet Management Workshop Chair

MESSAGE FROM THE PREMIER PARTNER

ARI is proud to be the premier partner of the 2018 Canadian Institute for Procurement and Material Management Fleet Management Workshop. We recognize the importance of collaboration, learning and professional development, especially being part of an evolving industry that is shifting towards modernization and automation.

ARI recognizes the importance of employee engagement and development, especially in order to take advantage of the changes and disruptions brought forward by new technologies. As such, we are so pleased to support events such as the CIPMM Fleet Management Workshop to promote growth and development within our industry. This workshop, with its commendable agenda of sessions and speakers, provides an excellent venue to achieve these important objectives.

ARI's focus is, and has always been, on providing world-class service to our customers. We aren't satisfied with simply having happy customers; we want our clients to be raving fans. As the landscape of our industry continues to change, our customers continue to expect more from us, and we always expect more of ourselves. This customer-first philosophy has led to big investments in our client-facing technology. This digital transformation will focus on streamlining non-value added transactional needs, proactively pushing information to the right people at the right time, and transforming data into action. Our goal is to leverage technology and the talented people we have internally to evolve the way we help our customers optimize their fleet operations.
