EXCELENCE IN MATRIEL MANAGEMENT AWARD

Do you know of an individual or team that **did something remarkable** in the past year for **procurement or materiel management within the Government of Canada**? For example, it could be something large-scale like a whole of government initiative, or a small project in a small department or agency which **had a big impact** on their work. Nominees may have come up with an **innovative idea or improved a pre-existing process**. The only criteria is that this work **demonstrates excellence in our field**. We want to celebrate those that **exemplify the strengths and adaptability of our professional community**.

EXCELLENCE IN MATERIEL MANAGEMENT

**François Carignan,
Parliamentary Protective
Service Canada**

I'm grateful and honoured to have been nominated and selected by the Awards Committee for this year's Award of Excellence in Materiel Management (Individual). I was lucky enough to have been given the opportunity to build a Materiel Management program from the ground up in a newly created department. I'm thankful to the executive leadership of the Parliamentary Protective Service (PPS) for their trust, and even more grateful for my team, who embarked on this journey with me. I share this success and award with them. What the community of Materiel Management professionals do everyday is the key to the success of our operations and respective mandates. Thank you!

EXCELLENCE IN PROCUREMENT

Contract Management Initiative Team – Shared Services Canada

Shared Services Canada's Enterprise IT Procurement Directorate developed a Contract Management Initiative with the goal to better inform stakeholders on the status of contracts in order to enhance procurement planning and mitigate potential risks.

The Governance Team established a Director-level monthly Contract Management Review Committee to improve awareness on the status of higher-risk contracts with information cascading down, and a branch specific expansion and wider distribution of the monthly Expiring Contracts List to provide insight from a bottom-up perspective, offering information at a granular level.

This initiative has facilitated closer engagement between Contracting Authorities and SSC Business Lines to ensure that all parties play their part in contract management and public funds are well stewarded.

GUIDING LIGHT IN MATERIEL MANAGEMENT AWARD

We all have at least one person that we think of, when we picture the person **who has helped advise and guide us in our career**. This award is to celebrate those important people. Nominees could range from well-known people across the Public Service to the quieter, in the background, steadfast support and guidance a person may have received from a manager or a colleague. Explain to us who this person is, what they have done, what it has meant to you personally, and to the development of the materiel management or procurement community as a whole.

Thank you for awarding me the Student Bursary. In my career to date, I have seen first-hand the significant and essential role procurement plays in equipping the federal government to successfully serve Canadians. I am grateful to my supervisors and colleagues who have generously shared their knowledge, experience, and time to introduce me to the world of acquisitions.
