5. You get challenging or interesting files
6. You are part of a well-functioning team
7. Others are involved in the progress of your files (approvals, peer review...)

9. You see opportunity for advancement
10. You see opportunity to advance in knowledge

Top de-motivators: lift your hand for 3 only

1. Others around you get easier, or less, work
2. There is not enough staffing (too heavy a workload)
3. Too many procedures or policies to remember
4. Management does not take the rules seriously enough
5. Others are involved in the progress of your files (approvals, brainstorming, peer review...)
6. There is a lack of a “respectful” workplace
7. My supervisor does not have enough time for me
8. There is too little room for advancement, limited opportunities at a higher level
9. The approval processes are too slow – too much bureaucracy
10. There is not enough training

2. What would motivate you to leave a department?
 - Or even to leave government to work in the private sector?
3. Do you have any questions for any member of the panel?
